Classroom Educational Assistant Diploma Program (3~Semesters)

This entry-level educational assistant program will prepare you to secure employment as an Educational Assistant in a public school or private school classroom setting. The belief that teaching and learning are aspects of the same process is reflected throughout the program by emphasizing critical thinking, collaborative learning and authentic problem solving. It helps beginning teachers become life-long learners.

This program will provide you with information and opportunities to begin to contrast your own theory of teaching, one that is dynamic and will invariably change with opportunity and experience. This theory building is essential to the development of your identity as a teacher.
